L. B. H. HANCOCK

M. Venkatanarappa, Esq., B.A., B.L.,
Secretary to the Government of His Highness the Maharaja of Mysore,
Development Department, BANGALORE.

Through the Deputy Commissioner, Hassan District.

Sir,

A. Adverting to G.O.No.L.5612-13/L.B. 25-35-32, dated 22/30th Jany.36, sanctioning the continuance of the existing establishment of the Silver Jubilee orchard Hassan for 35-36, I have the honor to state that the question of further continuance of the present establishment, as in margin, was considered by the Board at their meeting held on the 31st July 36 and it was resolved that ~~an~~ ^{the} existing establishment might be continued for a further period of three years from 1st July 1936.

In enclosing herein a copy of their resolution in the matter, I have the honor to request that necessary sanction of Government may be obtained thereon and the same communicated to me in due course.

I may add that needful provision has been made on this account under Economic Development of the District Board Fund budget for the current year.

I have the honor to be,
Sir,
Your most obedient servant,
H. B. [Signature]
President,
District Board, Hassan.

NO. A3 39/36-37
ENCL.

OFFICE OF THE PRESIDENT, DISTRICT BOARD,

Hassan, Dated 27th October 1936.

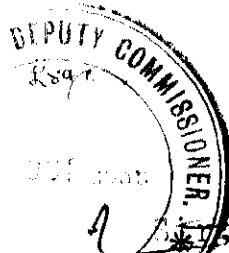

FROM

H.B. GUNDAPPA, Esq., B.A., B.L.,
President, District Board,
HASSAN.

TO

M. Venkatanarappa, Esq., B.A.,
Secretary to the Government of His Highness the Maharaja of Mysore,
Development Department, BANGALORE.

Through the Deputy Commissioner, Hassan District.

With reference to your letter No. L1921/L.B. 15-36-9, dated 8th September 1936, requesting to forward a report on the working of the Silver Jubilee Orchard, at Hassan, on certain points, I have the honor to state as follows:-

This orchard was opened on the Silver Jubilee ^{day} of His Highness the Maharaja during 1927 on a suitable plot in Krishnarajapuram extension under the Economic Development Scheme. The area covered by the Orchard comprises an extent of four acres kindly granted by the Hassan Municipality, as a free gift and situated by the side of the Bangalore-Mangalore road running through the Hassan Town.

This measure of development was initiated with the object of inducing people to take to ^{fruit culture} ~~agriculture~~ and to make this as a distributing centre of nursery of various kinds of fruits and vegetables.

Various kinds of plants at a cost of about Rs 780/ such as Australian and Bangalore apples, Allahabad guavas, Bangalore and Punjab Peaches, Kabul Grapes, Apricots, Devanahalli and China Variety Pomellos

Madhugiri and Kabul Pomagranates, Safodilas, Achrotes, Almonds, Almonds, Khirnis, Persimons, Mercara Oranges, Khamarak, Pine apples, Pears, Bread fruit, Bilampoo etc., have been planted. The various kinds of fruits and vegetables etc., grown in this garden are being exhibited every year at the annual Hassan Cattle show when a large number of people gather on that occasion and they have ^{been} awarded prizes for the same.

Being situated conveniently on the side of the Bangalore-Mangalore ^{main} road, this orchard is attracting the attention of several Visitors and Officers.

His Highness the Yuvaraja of Mysore was graciously pleased to pay a visit ^{to} this orchard in January 1930.

Wire fencing has been provided on all sides at a cost of about 953/. as a result of failure of rains and on account of the absence of satisfactory water facilities during 34-35, a pump and Engine was installed to the Montgomery well at a cost of about Rs 2,787/. A storage tank with cisterns and pipes have ^{also} been provided with a view to afford good and assured supply of water.

A sum of about Rs 11,943/ as noted below has been spent towards the maintenance of this orchard since its inception up to the end of 1935-36:

Purchase of plants.
Cost of manure.
Wire fencing.
Pump
Setting up a pendal for
grape vine.
Miscellaneous
Establishment charges.

Rs 780/
" 350/
" 953/
" 2787/
" 444/
1243/
3386/

Total

Rs 11943/

11,6557

11,6557

A monthly recurring charges of Rs 61/ is being incurred on the maintenance of this orchard on account of temporary establishment of coolies employed therein.

A sum of about Rs 150/ per year is being realised on an average by sale of fruits and vegetables grown therein and it has been leased out for the current year for Rs 300/ and there is already an offer for Rs 500/ for next year and Rs 700/ ^{Rs} in year after.

All possible steps are being taken to improve this garden and with the ~~wate~~^{water} conveniences now provided, it is hoped that the orchard will continue to flourish and pay better, and become a model fruit garden and a prominent centre for the production of improved varieties of fruits in this District. Recently, the Panchayets have become the purchasers of variety of plants from this orchard.

Having regard to the fact that this garden has been opened on the auspicious and memorable occasion of the Silver Jubilee of His Highness the Maharaja and that a large amount has been already spent thereon as stated above, its continuance is necessary.

I request, therefore, ~~that~~ the favour of necessary sanction of Government being obtained to the continuance of the existing establishment attached thereto for a period of three years, as already recommended in this Office letter No.A.3-39/36-37, dated 19th August 1936.

- 4 -

as resolved by the Board. .

I have the honor to be,
Sir,
Your most obedient servant,

H. B. [Signature]
President,
District Board, Hassan.

F
GEN. & REV. SECT.
16 FEB. 1937
L.B. 15-36-22

Sir,

With reference to your letter No.L 4050/L.B.15-36-17 dated the 20th November 1936 requesting to visit the Silver Jubilee Orchard at Hassan and submit a report as to its working on the right lines or otherwise, I have the honor to state that the Orchard in question was started on the auspicious occasion of the Silver Jubilee of His Highness the Maharaja of Mysore in 1927 with the object of inducing people to take to fruit culture and to make it a distributing centre of Nurseries for supply of fruit plants and vegetables as ascertained from the President, District Board, Hassan. According to the object on which the Orchard was started it has been found to be not working on the right lines and a copy of the Inspection Notes showing the advice given for rectifying the defects noticed in the working, is hercin enclosed for kind information. A copy of the Notes has also been sent to the President, District Board, Hassan for taking necessary action early.

2. I propose ~~that~~ that the following steps have to be taken to ensure the Orchard to serve the purpose for which it was started:-
- i. The culture of pot plants such as Crotons, flowering plants, foliage ferns etc as well as growing cuttings of shrubs, flower plants have to be altogether discontinued in the orchard as they do not form part of it.
 - ii. The intercultivation of vegetables has to be discontinued. When vegetables are grown they are liable to be attacked with lot of

lot of insect pests and diseases and in turn these insect pests and diseases will attack the fruit plants which are liable to suffer and thereby give room for loss.

iii. Cultural operations such as manuring, pruning, wintering etc have to be taken up in the right seasons and shown to the public for learning the same.

iv. An organised Nursery for propagating fruit plants of various varieties that would thrive in the Hassan District, has to be started and plants offered to the public for sale at reasonable prices or distributed free to the ryots, if possible, to improve fruit culture in the district.

Propagating fruit plants by sowing seeds, grafting, budding, layering &c may be undertaken to show to the public ^{and} to induce them to take to fruit culture and propagate plants of their own in these methods. This is the most important item of work to be undertaken for fulfilling the purpose for which the Orchard was started. Necessary Registers have to be -- maintained on the orchard to show the propagation of plants and their distribution to people who have taken to fruit culture.

v. Above all the water supply to the Orchard has to be improved for the successful working of the same as the present water supply is found to be inadequate especially in the summer season.

vi. To successfully carry on all the operations on the orchard, the Maistry in charge of the Orchard requires further training at the Lalbagh Nurseries and other Orchards at Bangalore and its surroundings for -- at least three months.

I have the honor to be
Sir
Your most obedient servant,

Arayan Re
Offg Superintendent
Government Gardens
12.12.37
12/12/37

Notes of Inspection relating to the Silver Jubilee Orchard at Hassan maintained by the District Board.

-:0:-

1. Proper irrigation should be given to fruit plants especially Citrus plants such as Oranges, Pomeles, Limes etc. which were suffering - greatly for want of water.
2. Ring bunds should be formed around the base of ~~xx~~ fruit plants to protect the roots which are ~~exposed~~ to the severe heat of the sun and then form soil basins 4" to 6" deep to a width of about a foot round the ring bunds and water or irrigate the plants.
3. The fruit plants should not be manured at present as it is inadvisat~~ed~~ to do so in the summer season. Manuring may be taken up at the ~~table~~ beginning of the monsoons or after one or two heavy showers of rain fall.
4. Lime sulphur paste should be applied to the stems of all fruit plants^s attacked with white~~ants~~ , as per leaflet giving directions for - preparation of the paste sent, to prevent the attack of white~~ants~~.
5. Intercultivation of vegetables in fruit plots ~~season~~ should be - stopped when there is scarcity for water utilising this water for properly maintaining the fruit plants.
6. Culture of pot plants such as Crotons, foliage, fern etc should be stopped as these do not form fruit culture in an orchard like this in~~spite~~ of scarcity of water to maintain fruit plants. The previous^s instructions given on this point by the Assistant Superintendent - are not adhered to.
7. Honge oil soap solution should be ~~xx~~ sprayed two or three times in the evenings after 5 O'Clock at intervals of 10-12 days to eradicate Sooty mould on fruit plants, as per leaflet giving directions for use -sent.
8. Watering or irrigation should be given to the fruit plants copiously once a week instead of daily or alternate day watering of a potful which is detrimental to the growth of fruit plants.
9. Togari plants allowed to stand on road sides even after harvesting crop in the orchard should be removed and thrown out as they are - found to be an eye-sore.
10. All dead branches in the citrus plants such as limes, oranges and - citrons should be pruned at once, wounds cleaned and green paint -- applied to prevent drying of sap and harbouring of insect pests.
11. The culture of shrub plants such as Hibiscus, crotons etc, in Nursery beds should be stopped as they are not required in the orchard. The culture of these is against the purpose for which the orchard was - started.
12. No organized nursery of fruit plants is maintained in the orchard. One may now be started at once to propagate purely fruit plants for sale to the public at reasonable prices in order to induce them to - take to fruit culture. This will help to fulfil the purpose for - which the orchard was started. Necessary advice will be given by - this Department.
13. The Grape crop should be wintered immediately for better yield.
14. Weeds and other jungle growth in all the fruit plants should be - cleaned to enable the fruit plants to grow freely.
15. All the roads and ~~burms~~ on both sides of the roads inside the orchard should be scraped and cleaned. (-d
16. All Papaya trees should be cleaned from dead leaves to present - better appearance.
17. All vegetable crops underneath the grape pendal should be cleaned.
18. The clerodendron and other hedges around the orchard should be - trimmed to give better appearance.
19. All fruit plants in pots should be arranged in a separate place - according to varieties.

Sir,

1542-37

With reference to your letter No.L.7542/L.S.
15-55-39 dated 21st April 1937 requesting to indicate
categorically the action taken on each one of the
propositions made by the Superintendent, Government
Garden, in Mysore, Bangalore relating to the Silver
Jubilee Orchard, Hassan, I have the honour to forward
herewith a report of action taken in the matter.

I have the honour to be,
Sir,
Your most obedient servant.

H. B. Gundappa

President,
District Board, Hassan.

30/10/37

Report of action taken on the suggestions made by the Superintendent Government Gardens in his Inspection Notes relating to the Silver Jubilee Orchard at Tasian maintained by the District Board.

Ins. actions made in the Inspection.

Action taken.

1. Proper irrigation should be given to fruit plants especially Citrus, plants such as oranges, pomeloes, limes etc., which were suffering greatly for want of water.
Proper irrigation has been given to fruit plants especially citrus plants such as oranges, pomeloes, limes etc.,
2. Ring bands should be formed around the base of fruit plants to protect the roots which are exposed to the severe heat of the sun and then bore soil to ring 4" to 6" deep to a width of about a foot round the ring bands and water or irrigate the plants.
Ring bands have been formed around the base of fruit plants to protect the roots from exposure to the sun and soil basins have been formed round the ring bands and the plants are watered.
3. The fruit plants should not be manured at present as it is inadvisable to do so in the summer season. Manuring may be taken up at the beginning of the monsoon or after one or two heavy showers of rain fall.
No manure is used in the summer and it will be done soon after the monsoon set in.
4. Lime sulphur paste should be applied to the stems of all fruit plants attacked with white ants, as per leaflets giving directions for preparation of the paste sent, to prevent the attack of white ants.
Lime sulphur paste as per instructions given to prepare the same was applied to only few plants attacked with white ants. Now the plants are in good state.
5. Inter-cultivation of vegetables in fruit plots should be stopped when there is scarcity for water utilizing this water for properly maintaining the fruit plants.
Inter-cultivation of vegetables in fruit plants has been stopped and the few vegetable plants remained were rooted out entirely as per instructions.
6. Culture of pot plants such as crotons, foliage, fern etc., should be stopped as these do not fit fruit culture in an orchard like this in spite of scarcity of water to maintain fruit plants. The previous instructions given on this point by the Assistant Superintendent are not adhered to.
Culture of pot plants such as crotons, foliage etc., are stopped now. The existing ones are looked after only to find a sale for the same.
7. Kerosene oil soap solution should be sprayed two or three times in the evening after 6 O'clock at intervals of 10-12 days to eradicate sooty mould on fruit plants as per leaflet giving directions for use sent.
Kerosene oil soap solution spray will be adopted as necessity arises and the same will be done as per instructions.
